No. P. 8/B of 1936.

OFFICE OF THE SURGEON GENERAL
WITH THE GOVERNMENT OF BOMBAY.

Bombay, 28th April 1936.

From

MAJOR GENERAL E. W. C. BRADFIELD, C.I.E., O.B.E., M.B., M.S., (LOND.), F.R.C.S.E., K.H.S., I.M.S.,
Surgeon General with the Government of Bombay,
Bombay;

To

THE SECRETARY TO GOVERNMENT,
General Department,
Bombay.

SUBJECT.—*Annual Report on Mental Hospitals in the Bombay Presidency for the year* 1935.

Sir,

I have the honour to submit the Annual Report on Mental Hospitals in the Bombay Presidency for the year 1935.

2. *Buildings.*—No major works were carried out at the Mental Hospitals during the current year owing to financial stringency. The Hospital buildings have been kept in good condition, the requisite repairs having been carried out by the Public Works Department. Minor works costing about Rs. 5,519 were sanctioned at the various Mental Hospitals during the financial year 1935-36.

3. *Water supply.*—Throughout the current year the water supply has been good and sufficient except at the Mental Hospital, Ratnagiri, where the erection of a pump to a well in the compound has improved matters.

4. *Accommodation.*—The overcrowding at all the Mental Hospitals continued to be a source of anxiety and the state of affairs for the whole Presidency (including Sind up to 1935) is shown in the accompanying graph. The population figures on the 31st of January 1936 were as follows :—

Name of Hospital.	Present accommodation.			Present population (31st January 1936).			Proposed accommodation.		
	M.	F.	T.	M.	F.	T.	M.	F.	T.
Yeravda	514	346	860	578	379	957	624	443	1,067
Thana	240	78	318	320	151	471	225	75	300
Ratnagiri	134	42	176	136	46	182	134	42	176
Dharwar	118	53	171	137	46	183	118	53	171
Ahmedabad	136	31	167	206	59	265	206	61	267
Total ..	1,142	550	1,692	1,377	681	2,058	1,307	674	1,981

The population in the Mental Hospitals is increasing at the rate of 62 per annum. In order to deal with the over-crowding, proposals have been approved for increasing the accommodation at the Central Mental Hospital, Yeravda, by 250, at Ahmedabad an increase of 100 beds is being considered by Government, while a new ward or block of 41 beds generously provided by Sir Boman Behram for Parsee patients at Yeravda, is nearing completion. The conditions at the Naupada Mental Hospital, Thana, still remain unsatisfactory, and radical treatment of this hospital, continues to be held up on account of financial stringency. As a temporary measure, it is proposed to reduce the population to approximately 300 a number for which the hospital was originally constructed. Temporary repairs and improvements are under consideration but the site is unsuitable, the buildings are out-of-date and it is desirable that this hospital should be abandoned as soon as funds permit. The Naupada Mental Hospital is really a problem for Bombay City which it inadequately serves. An up-to-date modern hospital within reach of the medical students of the two colleges in Bombay is very necessary and the City's requirements should be met by building a new Mental Hospital on a healthy site.

5. *Staff.*—Additional staff has been sanctioned for the Naupada Mental Hospital, Thana, during the year under report and proposals for similar increase at Yeravda and Ahmedabad have been submitted to Government. With the continual overcrowding it is necessary that the Nursing staff should be maintained at the recognised standard of 1 : 6. Every effort is made to do so though trained men are not easily obtained.

Statement No. I.—*Population.*

6. The following table shows the population, admissions and the daily average number of patients in the Mental Hospitals during the year under report and the last year :—

	1934.			1935.		
	Male.	Female.	Total.	Male.	Female.	Total.
Total population in Mental Hospitals.	2,047	852	2,899	2,209	920	3,129
Total admissions including re-admissions ..	647	218	865	717	272	989
The daily average Strength ..	1,460·2	647·8	2,108·0	1,554·3	696·4	2,250·7

Discharges and Cures.

7. During the year under review, 433 persons were discharged as cured, 125 improved, 63 not improved and 47 discharged otherwise.

Sickness and Mortality.

8. The daily average number of sick treated in Mental Hospitals was 101·1 against 112·1 in 1934. The percentage of sickness to the daily average strength was 4·5 against 5·3 in the previous year. The health of the patients was generally good and slightly better than the previous year.

9. The total number of deaths during the year under review was 174 against 159 in 1934. The ratio of deaths percentage to the daily average strength was 7·7 against 7·5 in the preceding year. The subjoined table gives the ratio of deaths percentage to the daily average strength at the several Mental Hospitals :—

Mental Hospitals.	Males.	Females.	Total.
Thana	11·4	8·8	10·6
Ratnagiri	8·2	14·1	9·6
Yeravda { E.	3·1	10·4	5·8
Yeravda { I.	6·4	5·2	5·9
Dharwar	6·9	26·6	12·3
Ahmedabad	5·6	7·1	6·0
Hyderabad	6·4	..	5·5
Total ..	7·4	8·5	7·7

10. The chief causes of deaths among patients were Malaria, Tuberculosis, Dysentery, Anæmia, Nervous Diseases, Pneumonia, etc. The rates of Thana are 6 per cent. better than in 1934. At Dharwar, there were 13 deaths among 63 female patients, none of them being due to preventable disease. The small number of patients admitted necessarily gives a high percentage of mortality.

Statement No. II.

11. During the year, 392 cases were observed at the various Mental Hospitals. Of these 298 were certified and admitted into Mental Hospital and 66 released as uncertifiable.

Statement No. III.—*Criminal Insanes.*

12. During the year under report, the total number of insanes confined in Mental Hospitals was 187 (176 males and 11 females), with a daily average strength of 117·3.

STATEMENT No. IV—*Religion.*

13. Of the 989 cases admitted for treatment during the year, 34 were Europeans and Eurasians, 81 Indian Christians, 604 Hindus, 224 Mahomedans and 46 belonged to other castes.

STATEMENT V.—*Ages of Insanes admitted.*

14. There were 79 insanes below 20 years of age on admission, 703 between 20 and 40, 192 between 40 and 60 and 15 were upwards of 60 years of age.

STATEMENT No. VI.—*Forms of Mental Disorder.*

15. The form of this statement has been revised during this year. Among the forms of mental disorder treated, the principal were :—

	1934.	1935.
Mania	810	732
Melancholia ..	593	635
Dementia Præcox ..	375	388
Insanity due to Cannabis Indica.	130	173

STATEMENT No. VII.—*Probable causes of Insanity among patients.*

16. The form of this statement also has been revised and made concise. The principal predisposing and exciting causes were Mental stress (446), Toxins (202), bodily illness (100) and Hereditary predisposition (109).

STATEMENT No. VIII.—*Cash Accounts.*

17. During the year 1935, the receipts from paying patients amounted to Rs. 1,93,126 against 1,77,154 in the year 1934. The value of stores received from the manufacturing departments less cost of raw materials was Rs. 21,112 and miscellaneous receipts amounted to Rs. 3,283 as against Rs. 14,377 and Rs. 3,487 respectively in the preceding year. The total receipts under the three heads amounted to rupees 2,17,521.

18. The gross expenditure for maintaining the mental hospitals amounted to Rs. 7,64,370 as against 7,04,583. Deducting the receipts from the actual expenditure the net cost to Government was Rs. 3,29,328 against Rs. 3,14,547. The increase in expenditure is due to the increased population in Mental Hospitals.

19. The following table shows the cost per annum per head of the daily average strength, in the several Mental Hospitals during the year under report and the preceding year :—

Mental Hospitals.	1934.	1935.	Remarks.
	Rs.	Rs.	
Naupada, Thana	205	214	
Ratnagiri	189	184	
Central Mental Hospital, Yeravda ..	331	341	Admits European patients also.
Dharwar	164	170	
Ahmedabad	207	176	
Hyderabad (Sind)	174	165	

A monthly cost from Rs. 13-12-0 to Rs. 18 for Indian patients and of Rs. 21 where European patients are admitted, cannot be called expensive.

Employment and Amusements.

20. The employment of suitable patients on such works as gardening, grinding, tailoring, carpentry, weaving, bidi making and helping in the domestic duties (such as cooking, sweeping, etc.), connected with the Mental Hospitals continued as in previous years. An amount of Rs. 2,582 was expended during the year for the amusements and recreation of patients against Rs. 2,812 in 1934.

Visitors.

21. The Official Visitors at all the Mental Hospitals were regular in their attendance.

22. A summarised report of the Central Mental Hospital, Yeravda, is published as an appendix.

I have the honour to be,

Sir,

Your most obedient servant,

(Signed) E. W. C. BRADFIELD,

Major General, I.M.S.,

Surgeon General with the Government of Bombay.

Annual Report of the Central Mental Hospital, Yeravda, for the year 1935.

Administration.

Lt.-Col. E. C. A. Smith, I.M.S., was in charge as Superintendent throughout the year and there were fewer changes amongst the members of the staff than usual, which is a greater desideratum, it is believed, in mental hospitals than in others mainly due to the fact that some of our patients are with us for quite long periods of time.

Accommodation.

On the 1st of January 1935 there were 896 patients as compared with 852 of the previous year. The number of beds provided is 776 and the daily average number in residence was 940.

Looking over the figures of the average daily residence from 1913 when the institution was opened to the present date it may be observed that the figure increased from 322 in 1913 to 656 in 1928 an increase of 334 in a period of 15 years, whilst the figure from 1928 to 1935 in a period of 7 years mounted to 940 registering an increase of 284.

At present there are proposals before Government to increase the accommodation here to 1,067 but it is feared that with the other mental hospitals in the Presidency similarly overcrowded, the problem of accommodation will still be critical within the next two years.

Our figures for average daily residence have increased from 869 to 940 (71) during the past year, whereas the annual average increase from 1913 to 1935 has been approximately 27.

This steep rise during the year is due almost solely to the fact that we have been compelled to admit all patients from the Bombay District which hitherto have been accommodated in the Mental Hospital at Thana.

During the year Sir JEHANGIR B. BOMAN BEHRAM, Kt. of Bombay, very kindly offered to build a block for 41 Parsi female patients. The offer was accepted by Government and we are hoping to occupy the new building within the next six months. The block has been designed on more modern lines than existing ones in order to make the patients feel more homely in their surroundings but whether it will be a success depends mainly on one's possessing an adequate staff. This it is hoped will be provided when the present proposals before Government for an increase for the whole institution materialize.

The extra accommodation when the building is ready for occupation will not ease the pressure in this portion of the institution as the number of patients now in residence has already discounted the increase in the number of beds that will be available.

Admissions, etc.

There were admitted 235 males and 156 females a total of 391 as against the total of 306 for the previous year and amongst the total, 16 came in

as readmissions. 38 of these patients were admitted as voluntary boarders. Of this number 14 were discharged as recovered, 5 as improved and 1 as not improved.

The total number of patients treated in the year was 1,287. Those discharged as "recovered" numbered 146, as "improved" 52 and as "not improved" 30. 6 were transferred to the United Kingdom and 5 to other mental hospitals in India. There were 56 deaths and the total that remained on the last day of the year was 966.

Types of Insanity.

As regards the type of cases there is no great difference in this respect between India and other countries and Manic Depressive Psychosis and Dementia Præcox constitute a very high proportion of the cases received. Amongst those admitted for addiction to drugs it is to be noticed that there were 8 times as many cases admitted for addiction to Ganja as there were for addiction to Alcohol. The type of Ganja case met with in this province is one of acute intoxication who usually requires a fortnight to three weeks to recover from the immediate symptoms and who is usually discharged within a period of 3 months of residence.

It has been one's experience to re-admit some of these cases a second time in each year for a fresh attack but there is no remedy for prevention without cutting off access to the supply of the drug. It is believed that Ganja is more popular at the present moment because good alcohol is expensive.

Death Rate, etc.—This worked out as a percentage of the average number in daily residence during the year amounted to 5·9. This figure was higher than we have been accustomed to for some years past, but it was inevitable for the following facts:—Of 56 deaths three cases occurred amongst those admitted in a moribund condition who died within the period of observation; one as early as within 11 days of admission. 11 patients died from Tuberculosis of the Lungs. 4 from Status Epilepticus and 3 deaths occurred among individuals who were over 73 years of age, one of whom had been in residence in the old Colaba Mental Hospital and here for over 33 years. There was one case who died from Typhoid fever and as no other cases of this nature occurred in this institution it is presumed that the source of infection was possibly food that had been brought to the patient by one of his relatives as there are no restrictions in respect of such gifts except of course during periods when cholera is present in the city.

Finance.

The total receipt during 1935 was Rs. 4,42,348 as against Rs. 3,97,209 in 1934. The increase is due to inevitable increased expenditure under several heads and calls for no special criticism.

The amount received from paying patients increased by over Rs. 10,000 and this could be improved if Magistrates issued maintenance orders, earlier than they do at present.

Amenities.

We have continued, through the generosity of Mr. A. C. Patel the proprietor of the West End Cinema and the Manager of Madans Theatres, Ltd., Poona Circuit, to be able to send some of our well-behaved patients free to entertainments at their theatres on Saturdays and Sundays.

This year we were fortunate enough through Parsi generosity to send many of our Male and Female patients to witness the Cricket Matches against the Australians and other matches between teams in the Maharashtra Cricket Tournament on the Poona Club Limited Cricket ground—it was greatly appreciated. There have not been the same number of picnics, as it is now more and more difficult with the inevitable increase in the number of our patients and the limitation of staff to provide for the supervision necessary on these occasions without depleting to a dangerous extent the staff that is required for the ordinary routine work of the institution. The monthly dances and the weekly social evenings have been enjoyed most thoroughly whilst Cricket, Hockey and Football during the respective seasons has not only afforded interest and recreation to the majority but has stimulated and encouraged the work of those patients who have so materially helped in keeping the grounds in excellent order.

In conclusion, we are most grateful to all the members of our Visiting Committee for attending the monthly meetings in their turn so assiduously and taking more and more interest in the welfare of our patients in general.

Mr. A. C. Patel though not a member of the Committee has continued to support us in every way for which we express our thanks and there are few patients with sufficient insight into their condition who do not appreciate all he does for us.

(Signed) E. C. A. SMITH,
Lt.-Col., I.M.S.,
Superintendent,
Central Mental Hospital, Yeravda.

Central Mental Hospital,
ravda, 5th February 1936.

⊗ Decrease due to revised distribution of space at the Central Mental Hospital, Yeravda, at 55 superficial feet per patient instead of 50.

@ This includes the proposed increase in accommodation by 291 beds (250 in the Expansion Scheme and 41 in the Sir J. B. Boman Behram block) at the Central Mental Hospital Yeravda, and by 100 beds at the Mental Hospital, Ahmedabad. This however excludes the accommodation of 248 beds at the Mental Hospital, Hyderabad (Sind) owing to the separation of Sind.

∝ Estimated daily average strength in 1940 excluding Mental Hospital, Hyderabad, Sind.
